Wow, I'm impressed!	Try not to screw anything up this time!	You've exceeded my expectations...but not in a good way...
Excellent work, if I do say so myself.	Seriously? Why would you do that?!	Well, that didn't go as planned...
Good, good.	Did you do this on purpose?	Here we go again...
Well done.	How have you made it this far in life??	This is just wonderful...
You've exceeded expectations this time. Keep it up	Am I a joke to you?	My day just got so much better thanks to you...
Good work.	Well, that didn't go as planned...nice!	I see orders mean nothing to you...
You know, I hope you do this well more often. We're going to need it.	I'm trying really hard to be your friend right now, but you're making it really difficult!	Oh it's you...
Ahh yes, my favorite trainee does it again!	Do you think this is funny?	Well, I guess the quality of trainees has really dipped...
Yes!	After you did that I thought I was going to die!	Get away from me!
Keep this up, and you'll be in the action in no time!	You know, you're supposed to not make me look like a fool right?!	You tried, but it just was not enough...
Hell yeah!	Oh, right, like that was ever going to succeed!	Wow, I'm just speechless...
You, my friend, deserve all the praise coming your way!	I'm going to resign after this! I don't care if they ship me back home in a sardine can, I'm getting away from you!	Well atleast you're not as bad as the last trainee. Although it is pretty hard to not blow up the moon...
Finally, some good news!	This isn't procedure!	I might as well teach a rock! Atleast a rock doesn't screw up as much as you!
This is fantastic!	I've only been in this tower for decades!	After that mess, you should probably leave...
What a great move in scientific ingenuity! You're going places my friend!	You solve problems with enough speed to match molasses in January, you know that trainee?	Wow that just happened! This is unbelievable...
You deserve a medal after that excellent performance!	This isn't the time to mess around, we have a job to do trainee!	Oh...That's not going to be cheap. I'm not paying for that, no way.
Wonderful!	I don't have the patience for this! No one does!	You know what? Let's just end the lessons today.
Yes this is exactly what I had hoped for!	Get out of here!	Why do I have to be put with the worst trainees?
My calculations were right!	I'm glad you took your time!	I wish I stayed in the lab today...
That is how it should be everytime! Well done!	Next time if I want something done completely incorrectly, I'll call you!	This is why you shouldn't follow your dreams...
